Professional Movers was again voted "Best Moving Service" for 2016.

Four-Peat Winner of 'Best Moving Service' Award

Supporting an effective culture of caring for their people, caring for their customers, and pride in performing quality moving services has paid off again for Professional Movers.com. Earlier this month, Readers of The Oakland Press have named Professional Movers.com the "Best Moving Service" for 2016. Professional Movers.com is no stranger to the title, this marking their 4th straight year of being recognized as the "Best Moving Service" and their 5th time overall.

The voting process took place over a period of a few weeks through online and newspaper balloting.

It was another big win for the growing local moving company whose entire 39+ Team Members were recognized at a recent breakfast in their honor. There were chants from team members shouting four-peat and the atmosphere was high-energy when Relocation Manager, Kris Bergstrom

addressed the team with the announcement. Kris said, "We are proud to continue to hold the title, Best Moving Service. Here at Professional Mover.com, we don't set out to win awards. We simply do our best to create a culture of appreciation and respect for YOU and we give our customers the best moving experience possible through innovation and quality service....and the awards follow. Thank you for being the driving force behind our success."

The award comes at a time of tremendous growth and innovation for Professional Movers.com. The company recently completed the Goldman Sachs 10k Small Business program and launched an estimation software program to improve the accuracy of move estimates for their customers, an idea that was generated by a team member in a brain-storm session. The company believes in offering their team members unlimited room for professional and personal growth, allowing every team member the chance to communicate their opinions and ideas.

Additional proof in the success of their idea encouraging philosophy was unveiled at the breakfast celebration when James Crowley, the Director of Digital Marketing presented a new moving calculation widget that he and his team has been working on. The widget, being referred to as "The Moving Calculator" instantaneously provides an online visitor with a ball-park price to pack and move their house anywhere in the United States. It uses house size and move distance to provide a user with an estimated price range in less than 20 seconds. It is targeted to the person who is simply in the exploratory stage and just wants a quick and rough idea of cost without any commitment. The presentation was met with roaring applause and will officially launch for public use

beginning on May 1st, 2016. James said, "This is just another example of how Professional Movers.com is leading the Moving Industry in new ways to positively help our customers. We are not your Grandfather's Moving Company."

Professional Movers.com has offices in Detroit and Walled Lake and specialize in providing local and long distance relocation services for families and businesses. Prior to any move, their Moving Consultants will schedule a time to visit your home or office. The appointment time will be based on your availability not theirs. All pricing is provided in writing and easy to understand. Most importantly, the promises that they make are the promises that they keep. Their movers arrive to every job wearing uniforms and driving a clean truck. All movers are company employees who are intelligent, courteous, and highly skilled at moving. They even assign a team leader to every move to ensure complete accountability. From furniture to doorways and floors, protective materials are used to mitigate any opportunity for damages to occur while moving.
